Chamber Celebrates Centennial Year in 2013

"The purpose of this chamber of commerce shall be to promote the commerce, trade, industry and public interests of the city of Brockton and surrounding region; to promote and regulate a commercial exchange; to acquire and disseminate business information; to establish and maintain uniformity in commercial usages; and to promote just and equitable principles of trade."
February 14, 1913

The Metro South Chamber of Commerce was founded in 1913 by 13 businessmen. Predominately composed of manufacturing businesses, especially shoe manufacturers, the Chamber set out to advance the region economically by providing a network of business resources.

While the industries have changed over the past 100 years, the goals and impact of the Metro South Chamber have not.

The Chamber invites you to join us this year as we celebrate our Centennial year. During the year, we will be recounting the successes of the Chamber and

the region over the years, as well as looking forward to the future. This will be done through enriched programming with exciting and well known speakers and added entertainment, special surprise give-aways at Chamber meetings that pay homage to the past, as well as encourage further business relationships to form, and enhanced publications that highlight the past, present and future and all the members who make everything possible.

There will also be a Capital Campaign to raise \$350,000 to renovate and upgrade the Chamber Building, a former Edison power plant, in order to best represent and serve as the hub of business in the Metro South region. The year will culminate with the 100th Annual Meeting & Expo scheduled for November 20, 2013.

To read about the Chamber's 100th birthday, see page 2. To learn about the Centennial Book for Business, see page 2. To learn about the Capital Campaign, see side article. For more information, visit www.metroouthchamber.com

Brockton Rox Owner Bill Murray Praises Team

Article Courtesy of The Enterprise

Bill Murray

When Bill Murray isn't busy being typically snarky and funny in one of his goofy comedies, or atypically roguish and charming in his new drama, "Hyde Park on Hudson," he has a hobby, one that he practices, locally, during the warm months. For the past decade, Murray has been a founding co-owner of the Brockton Rox, an independent

baseball team that was originally part of the Can-Am and Northern leagues.

But with some problems, mostly monetary ones, plaguing the team, the decision was made to shift to the amateur ranks, joining up with the Futures Collegiate Baseball League.

Murray is happy with the change.

"We've had some struggles and have lost money any number of times in the past," he said, during a break from his

"Hyde Park" interview sessions. "At a certain point there was a thought that maybe we should just fold it up. But Brockton loves having the ballpark, and we felt it was really important to keep it going even if it was not profitable. So we reconstituted it."

That means the team will now feature NCAA players and, like others in the league, must have at least 15 players living in or playing college ball in New England.

"We became sort of a college wood bat league," said Murray, "and that was a delightful change. There's

probably a little less power in the league, because they're a little younger. But the enthusiasm is higher. They go really hard. And we may have actually made money this past year."

Though Murray is often tied up with a busy movie schedule when the season is in swing, he makes an attempt to visit the park whenever possible. Murray attended a couple of games last season and hopes to attend more in the future.

Metro South Joins State at BioTech Conference

Massachusetts leads the country in the BioTechnology Industry with over 500 companies located within the state. It also receives the highest per capita NIH funding. The Metro South region is home to over 45 of these companies.

The Metro South region provides exceptional location and value for BioTech companies interested in locating to the area. In addition, the region contains valuable resources such as New England's only desalination plant, an expanded and upgraded water reclamation facility, a skilled workforce, four institutes of higher education and three technical schools. Existing BioReady communities within the region, as designated by MassBio, are Canton, Abington & Rockland, Brockton, Randolph and West Bridgewater.

The Metro South Chamber of Commerce will be representing the Metro South region at the upcoming **2013 Bio International Convention** taking place from **April 22-25, 2013** in Chicago, Illinois. The BIO International Convention is the largest global event for the biotechnology industry and attracts the biggest names in biotech, offers key networking and partnering opportunities, and provides insights and inspiration on the major trends affecting the industry. The Metro South Chamber also displayed a booth at the 2012 BIO International Convention which drew 16,505 industry leaders from 49 states and 65 countries.

Business Community Turns Up and Turns Back Larger Tax Increase

Story from Page 1

Several Chamber Board Members and Business owners testified along with Chamber CEO Christopher Cooney at the recent tax hearing held in Brockton. Mark Donahue of M. Donahue and Associates, Larry Siskind, Siskind and Siskind and Board Chairman, Bill Morse, Mutual Bank all testified before the Brockton City

Council highlighting the value Brockton businesses by way of jobs and economic activity while describing how Brockton's tax rate has gone from attractive to unfavorable over the past 3-5 years. Bill Lucas, Belmont Dry Cleaners, Peter Neville, Concord Foods and Ed Byers, Cindy's Kitchen also attended along with more than one hundred people to urge the Brockton City council to resist any tax

hikes this year.

"The city's high business taxes are discouraging business owners from moving into the city," said Christopher Cooney, President & CEO of the Metro South Chamber of Commerce.

Several motions for a much higher commercial tax rate were defeated with a compromise vote moving the tax factor from 1.56 to 1.57. The Chamber has been

urging a rate of 1.50 each year has seen the council move it down from 1.73 to its current rate.

The Chamber urges businesses to remain committed to this issue. The next opportunity to impact this issue is the annual budget process that begins in April and features a public hearing in June. The chamber will publish the date of this hearing closer to June.

Local MLK Celebrations Planned

Dr. Martin Luther King, Jr.

Article from the www.thekingcenter.com

The Martin Luther King, Jr. Holiday celebrates the life and legacy of a man who brought hope and healing to America. We commemorate as well the timeless values he taught us

through his example -- the values of courage, truth, justice, compassion, dignity, humility and service that so radiantly defined Dr. King's character and empowered his leadership. On this holiday, we commemorate the universal, unconditional love, forgiveness and nonviolence that empowered his revolutionary spirit.

We call you to commemorate this Holiday by making your personal commitment to serve humanity with the vibrant spirit of unconditional love that was his greatest strength, and which empowered all of the great victories of his leadership. And with our hearts open to this spirit of unconditional love, we can indeed achieve the Beloved Community of Martin Luther King, Jr.'s dream.

Chamber Announces the Metro South Building Renovation Project

MSCC Building 1883

MSCC Building 2012

Business Assistance Center

Edison Business Incubator Space

We're excited! After a century of encouraging companies to build and invest in facilities in the Metro South area, the Metro South Chamber of Commerce is renovating its historic office building. The historic Thomas Edison power plant, donated to the Metro South Chamber of Commerce in 1988, to serve as the Chamber's headquarters, is a landmark building and serves many businesses and organizations within the region. With more than \$120,000 in cash received, we are on our way.

We hope you're excited too, because for individuals and corporations located in Metro South, a renovated Chamber facility reflects well on each of us. It means high visibility for the Metro South region among relocation and expansion prospects. It means a state-of-the-art conference room available for the use of Chamber members, fully equipped with multi-media facilities. It means a more efficient Chamber to serve you better. It means the reinvestment and renaissance will be spreading to all of us who live and work in Metro South. This will reflect very well on the reputation of all of us who live and work here.

We need to raise an additional \$250,000. to renovate the Chamber's School Street building into an updated operational facility. We need to rehabilitate the masonry, replace the roof, rebuild the façade panels, paint, put in a lift to provide handicapped access and bring the building up to current code.

Now it's your turn. We need your very generous investment in the Metro South Building. This is an investment which will have permanent impact on the Chamber and the region it serves. Your corporate or private gift of \$25,000. will renovate a conference room which will be used to generate more investment in the region. Your gift of \$10,000 will renovate an office. Even a gift of \$1,000 will put the Chamber closer to our common goals of a healthy regional economy and a high quality of life.

Why help the Chamber? Because the Chamber helps you. The Chamber encourages corporations to locate and invest in the region, which raises the quality of our services and lives. It helps its members expand their businesses in Metro South. It retains professional help to represent your views to state and federal governments. It serves as a catalyst for you and other business people to communicate and solve common problems. It offers your company group health insurance plans. It provides you with many business-related services which are available at little or no cost.

Think hard about the many benefits of living and working in Metro South. Then think harder about how much you and your organization can possibly give to Metro South. And then give it. We need your support. Because while we're renovating this historic building, we're investing in the future of Metro South. And we're helping to build yours.
